Languages

Japanese (Native)
English (Intermediate)
French (Intermediate)

Education

Interactive Media Design – Seneca Polytechnic 09/2024-06/2026

Studying UI/UX design, app development, motion design, and web development with a focus on user-centered digital products.

Selected Projects

PrépaGo – French DELF Prep App Flutter · Google Cloud TTS
Product Design | App Development | Content Strategy

Designed and developed a mobile app for French exam prep targeting CEFR A1–B2 learners; published to App Store. Compiled trilingual (FR/JP/EN) vocabulary dataset of 3,496 words and a 50-unit structured grammar system.

PrépaGo Japanese – JLPT Prep App Flutter · Dart
Product Design | App Development | Content Strategy

Designed and developed a mobile app for Japanese language learning aligned to JLPT N5–N1 levels. Built vocabulary system with JLPT frequency-ordered groups, kanji practice, and grammar conjugation modules.

Nature Cycle – Skincare UX App Figma · INM300
UX Research | Information Architecture | Prototyping

Led full UX lifecycle: persona research, IA, wireframes, and hi-fi HTML prototype for a cycle-aware skincare app.
